Dendro & Egypt

Wednesday, April 16, 2014 - 12:00pm to 1:00pm

Room: Bannister 110

The Egyptology Workgroup of the LTRR/Egyptian Expedition will present a series of brief illustrated lectures intended to update colleagues and interested members of the community on our current projects and research. Presentations have three related foci: graduate student thesis research (Egyptology), postdoctoral research (regarding artistic and linguistic trends with important chronological considerations), and collaborative research projects in progress and preparation (dendrochronology/dendroarchaeology).

Presenters will include: Jessica Sue Wiles (MA student, Classics), Hussein Bassir (postdoc, Egyptology), Tamer Fahim (postdoc, Egyptology), Rebecca Caroli (MS student, Geosciences), and Pearce Paul Creasman (LTRR).
